SUMMARY

Full-stack developer building scalable web and mobile applications with Next.js, React, and Agentic AI. 3x hackathon winner with internship and freelancing experience shipping real-world products.

TECHNICAL SKILL

Full Stack Web Development, Full Stack App Development, Agentic AI Technologies, Next.js, React, TypeScript, JavaScript, Express.js, MongoDB, PostgreSQL, Vector DB, Postman, Redux, LangChain, Tailwind CSS, Java, Python, Kubernetes, Docker, GitHub.

PROJECTS

❖ [\[Link\]](#) LogWatchAI (3x Hackathon Winner Project)

AI-powered platform for safe deployments and real-time system reliability using intelligent traffic routing, RAG-based log analysis, autonomous self-healing agents, and Nmap-powered network monitoring- React, JavaScript, Pinecone, Nmap, MongoDB, Huggingface, Groq. [\[Frontend\]](#) [\[Test Backend\]](#) [\[Stable backend\]](#) [\[Proxy\]](#) .

❖ [\[Link\]](#) CareerCraft AI

Generate GitHub READMEs, optimize LinkedIn profiles, build, customize and analyze resume using fine tuned NLP models and Gemini APIs- Next.js, JavaScript, MongoDB, Fine Tuning, Gemini API.

❖ [\[Link\]](#) UrbanFix AI

AI-powered civic issue reporting system leveraging Agentic AI workflow, RAG, and LLMs to detect duplicate complaints, prioritize issues, and auto-assign departments.- Next.js, JavaScript, MongoDB, Pinecone, Groq.

❖ [\[Link\]](#) Equicraft

Platform for sustainable business models generating fair livelihoods, preserving cultural heritage, and promoting equitable growth using RAG- Next.js, JavaScript, Pinecone, MongoDB, Groq.

EXPERIENCE

❖ Full Stack Web Developer Intern (Tending To Infinity Academy) July 2025 - Present

Developed a responsive EdTech web app where educators upload courses and students enroll to learn. Built pages, integrated and build backend APIs - Next.js, TypeScript, Express.js, PostgreSQL.

❖ Full Stack App Developer Intern (Tending To Infinity Academy) Feb 2026 - Present

Built a cross-platform mobile application using Expo, delivering a smooth user experience with integrated backend connectivity and native-like performance- React Native, Expo, Express.js.

❖ Freelance Full Stack Developer(Mom's Kitchen) March 2026 - April 2026

Developed and deployed a responsive restaurant website using modern full-stack technologies, improving online presence and customer engagement- Next.js, TypeScript, JavaScript, Express.js, PostgreSQL.

ACHIVEMENTS

❖ 1st Place at Constructor() Hackathon

The Official Hackathon of Tesseract 2026 at Guru Nanak Institute of Technology.

❖ 3rd Place at "Dev Your Web"

Secured 3rd place at "Dev Your Web", a full day web development competition organized as part of Prabuddha.

❖ 4th Position in the Idea/Project Showcase

Secured 4th position in the Idea/Project Showcase on National Science Day.

EDUCATION

❖ Bachelor of Technology in Computer Science and Engineering

Aug 2023 - Present

Techno International New Town (TINT), New Town
